+ WORK HISTORY

JAN 2019 -
present

SENIOR UI/UX DESIGNER & DEVELOPER

Northwestern University IT, Media Technology and Innovation Group - Evanston, IL

- Promoted to a senior-level position, September 2020

UI/UX DESIGNER & DEVELOPER

- Responsible for the look & feel and user experience of all the projects developed by our team for example websites, mobile apps, and other technology-based systems.
- Lead user-centered design activities such as user research, prototype & mockup creation, usability testing, design ideation, comparative analysis, and usability for end-users
- Help develop the front-end architecture of the web and mobile app projects using HTML5, CSS3, and JS framework
- Provide technical support to the users of our Drupal and WordPress projects

Aug 2017 -
Nov 2018

UI/UX DESIGNER

DePaul University Innovation & Development Laboratory - Chicago, IL

- Spearheaded the conceptual development, information architecture, and user-interface design of the DePaul iD-Lab website, including their conference websites and other online application projects
- Develop mockups, wireframes, high-fidelity prototypes, and conducted comparative analysis, user research, and usability testing
- Working closely with the lab manager, developers, researchers, and scrum master on a weekly basis or whenever required

Feb 2017 -
Nov 2018

WEB DESIGNER / FRONT-END DEVELOPER

DePaul University Library - Chicago, IL

- Developed multiple websites for the library, including support software applications, interactive way-finding maps, and content management system websites. My job responsibility includes maintaining these systems.
- Created Microsoft SharePoint pages, web parts, and WordPress themes. My job includes the management of plugins, widgets, and child themes.
- Major achievement: 2018 Student Employee of the Year Nominee

Sep 2016 -
Sep 2017

GRAPHIC DESIGNER

DePaul University Athletics & Communications (DePaul Blue Demons) - Chicago, IL

- Conceptualize creative ideas and implement them into actual designs in print and digital formats that are used by various athletic teams of the university for their advertising and marketing campaign
- Designed posters, flyers, window clings, game schedule handouts, game day & final score social media graphics, website header banners, and others

Jun 2013 -
Sep 2015

GRAPHIC / VISUAL DESIGNER

Jetex Flight Support | Dubai Airport Freezone, Dubai, UAE

- Responsible for brand management and corporate identity of the company
- Designed web banners, animated presentations, social media campaigns, newsletters, advertising & marketing materials e.g. trade show banners, signages, brochures, posters, magazine ads, giveaway items, and branding for cars, aircraft, and airport heavy equipment
- Involved in the photo and video production to support marketing initiatives, campaigns, sales & support, and corporate communications
- My designs were used in various airshows and major aviation events around the globe such as the NBAA (USA), LABACE (Brazil), ABACE (China), EBACE (Europe), Paris Airshow (France), MEBA (UAE), and the Dubai Airshow (UAE)
